

# Koh-I-Noor Polycolor

## Old vs new comparison chart

This addendum chart was created to help colorists with older (and newer) Polycolor sets chart their pencils. Koh-I-Noor has had many different sets available over the years (12, 24, 36, 48, and 72) plus a few different themed collections such as the 24 landscape set and portrait sets. To help alleviate some confusion, this chart contains all of the colors including several that have since been discontinued.

Colors marked with \*\* were included in the original set of 72 colors, but are not included the set of 144 newer colors (discontinued).

Also, several color names have changed, so both (where applicable) are indicated in the chart: new color name / old color name.
