Derwent Chromaflow

Notes & color combos

A new fairly addition to the Derwent family, Chromaflow colored pencils are available in sets of 12, 24, 36, 48, and now 72. They have a 3.5mm wax core. The round, black barrels include the name and number of the color, and the ends match the color core.

Older Chromaflow pencils (12 and 24 sets) from before 2022 include a two-digit number with the color name, while the newest pencils incorporate them into a four-digit number. For example, what used to be 18 Grass Green is now 1800 Grass Green, and 23 Black is now 2300 Black.

The lightfast rating is included in parenthesis after each color name. Derwent uses the Blue Wool test (ISO 105) to evaluate the lightfast quality of its colors:

- 5 and below = not very lightfast
- 6 = good
- 7 = very good
- 8 = excellent

All of the pencils in this set are considered vegan friendly.

Derwent Chromaflow

0010 Citrus Yellow (5)	1110 Midnight Purple (7)	1820 Lemon Lime (8)
